

South Red Sea Enterprises

Company Profile

South Red Sea Enterprises has been established since 1989, it was one of the 1st companies that organize diving and own Safari Diving Boats at the Red Sea nowadays it is a tourism business comprising of the 'Bedouin Valley Eco lodge', Scuba Diving, Fishing and Land Based Tours & Activities Operation, solely Egyptian owned and operated which offers its guests relaxing environmentally friendly accommodation and takes them to less accessible areas of National Parks and places of interest in the deserts and waters of South East Egypt (14 km south of Marsa Alam), where climate is pleasant for accommodation in different categories, camping, diving and touring all year round.

South Red Sea Enterprises welcomes groups, families and independent travelers, particularly the scuba diver as well as tourists with an interest in natural wonders and the environment and those seeking an alternative lifestyle holiday. We offer all inclusive accommodation and tours - day and extended trips for scuba diving, fishing and desert tours which are available locally, this is done in custom built Dive Boats and 4 Wheel Drive vehicles departing directly from the resort which means we are able to access areas more conveniently and efficiently.

The focus of South Red Sea Enterprises holidays is to get back to nature in a deliberate move away from technology, legislative or political issues, our goal is to help people experience the 'real' Egyptian Red Sea waters and desert and to see its many natural wonders.

Bedouin Valley is an Eco lodge located in a friendly environment 14 Km south Marsa Alam between the sea and the desert.

Bedouin Valley is an ideal place for practicing water activities as well as diving and snorkeling. Also it is a relaxing place for those who want to spend holidays, independent travelers or as families.

Bedouin Valley is composed of 20 Bungalows and 10 Chalets, all of them are equipped with bathroom and toilets.

Our diving center is placed directly on the beach opposite to Shaab Samadai (this place is well known of the Dolphin House)

All our multinational and local staff will gurantee your diving holiday to be one of the most unforgotten holidays. We offer a professional and high quality services.

There are special trips on request

Different Types of Diving:

House reef diving is available at any time of day and for night diving. A small bay exists on the resorts Beachfront here the water is clear and calm. There is a wall which is completely covered in hard and small soft corals, sandy gutters cut into the gently sloping reef leading into an inner sandy area at around 30 meters. A myriad of colors and abundant exotic marine life can be seen.

Shore diving by truck is available, departing daily at 8.30am and returning at 3.30pm. Divers will be driven by truck to two different coastal dive sites daily. Divers will discover and explore the most pristine and untouched reefs of the Egyptian Red Sea coast line.

Boat diving is available, departing directly from the resort harbor daily at 8.30am and returning at 3.30pm. Divers will cruise by boat to two different local dive sites daily. With crystal clear water and world-class dive sites such as Zabargad and Rocky Islands and St Johns Reef at our doorstep divers will be reluctant to ever leave.

Diving courses are taught by qualified Instructors in our modern classrooms with all teaching resources available. Dives is conducted on the house reef, by truck on coastal dive sites and by boat.
